WORK EXPERIENCE

Junior Financial Analyst

January 2023 – April 2023

Full Creative

India

- Automated AR/AP tracking using VBA macros and SQL reconciliation, improving reporting accuracy by 25% and reducing processing cycle time by 18% across monthly financial close operations.
- Led variance analysis using Pivot Tables, XLOOKUP, and scenario models, reducing operating expenses by 10% and strengthening cash flow forecasting accuracy during low inflow periods.
- Directed compliance validation of settlement entries against audit controls and regulatory frameworks, processing 1000+ invoices monthly with 100% documentation accuracy.

Junior Investment Analyst

2022 – 2023

Right Stack Capital Advisors

India

- Developed DCF, comparable, and precedent valuation models for M&A mandates, accelerating deal execution timelines by 22% while meeting SLA-driven reporting benchmarks.
- Executed daily securities settlement and reconciliation for 200+ transactions, eliminating position breaks and ensuring 100% adherence to prescribed market deadlines.
- Conducted financial due diligence for 15+ PE acquisitions, auditing accounting records and operational metrics, improving investment screening accuracy by 30%.

Data and Research Analyst

2021 – 2022

Fintuple Technologies

India

- Resolved trade settlement discrepancies and failed trades, reducing exception rates by 28% and ensuring timely escalation across trading and operations teams.
- Streamlined investor reporting through NAV validation, hurdle rate assessment, and bank reconciliations, improving onboarding efficiency by 35% across fund portfolios.
- Authored performance analytics on PMS funds using AUM and risk metrics, increasing platform traffic by 48% and improving investor lead conversion rate by 60%.

PROJECTS

Merger and Acquisition – Mecwin Technologies & Salzer Electronics

Valuation and Financial Analyst

- Built comparable and precedent valuation models, increasing acquisition screening accuracy by 30% overall.
- Executed financial and accounting audits, generating 12 compliance reports for negotiation validation processes.
- Led onsite due diligence assessments, analyzing 25+ operational metrics to validate target scalability.

DCF Valuation and Portfolio Analysis – Syngene International

Data and Research Analyst

- Modeled DCF valuation framework, strengthening portfolio allocation precision by 28% across sectors.
- Analyzed 15 financial ratios and cash flow drivers, improving investment thesis validation accuracy.
- Structured performance analytics dashboards, enhancing portfolio review efficiency by 35%.
